1. After you log in to your online account, select your HSA tile.
2. Click on your HSA balance.
3. Select **View Beneficiaries**.

### 3. Consider Your Interest Options

At EBC, we have two interest options for your HSA—a **traditional interest option** or a **high-yield interest option**. When you first enroll in your HSA, your HSA cash balance will automatically start out with the traditional HSA interest option, but you have the ability to transition your HSA cash balance to a high-yield HSA option at any time. The high-yield HSA gives you the opportunity to earn higher interest on your HSA funds by having your HSA held in a non-FDIC-insured account that is backed by a highly rated insurance company, Pacific Life. You can change your interest option preference in your online account:

1. After you log in to your online account, select your HSA tile.
2. Click on your HSA balance.
3. Select **Interest Options**.

### 4. Learn More About Investing

Once your HSA reaches a \$1,000 cash balance, you can start investing your HSA funds. There are three investment models to choose from based on your expertise—Managed, Self-Directed, and Brokerage. Whether you're new to investing and are looking for a guided experience **or** are a seasoned investor looking to research and trade stocks and ETFs, you will have an investment model that best fits your needs. If your investment needs ever change, you can switch your investment model at any time.

You can also transfer funds between your HSA cash balance and investment balance at any time. Learn more about your investment opportunities in your online account:

1. After you log in to your online account, select your HSA tile.
2. Click on your HSA balance.
3. Select **Learn More About Investments**.

**Tip:** You also have access to an *HSA Investments User Guide*, which is available in the main menu of your HSA portal under **Forms and Documents**.
